## About Tokyo Chiropractic

Tokyo Chiropractic is one of the oldest chiropractic offices in Tokyo which had been established in 1949. This office is located in Kita-Aoyama, only 4 minute walk from Omotesando station and 5 minute walk from Gaiemmae station.

## Chiropractic

Chiropractic is a natural health care that focuses on the relationship between the body's structure, mainly the spine, and how it functions through the nervous system. A Chiropractor primarily performs spinal manipulations (adjustments) to correct misalignment of the spine and this is to improve function and support the body's natural ability to heal itself.

## Indication: Chiropractic care may help following conditions

Headache , Stiff Neck, Whiplash Injury, Shoulder Pain, Spinal Curvature, Acute and chronic Back Pain, Low Back Pain, Sciatica, Hip and Knee pain, Thoracic pain, General fatigue, Female problems, Gastrointestinal problems, Autonomic nerve imbalance and Health maintenance.
